## EXPERIENCE

### MERN Stack Developer Intern

22 June 2026 – Present

#### Gitakshmi Technologies

- Contributing to **3 live web applications** including G-HRMS, G-Visitor, and G-EduPath as part of a MERN Stack development team.
- Working with React.js, JavaScript, Node.js, Express.js, and MongoDB for frontend and backend web application development.
- Developing and integrating REST APIs and using Postman for API testing, request validation, and debugging.
- Using Git and GitHub for source code management, version control, and collaborative development.
- Using npm for dependency management and maintaining project packages.

## PROJECTS

### Hire Hub – Job Recruitment Web Application

**Live:** <https://hire-hubs.netlify.app/>

- Developed and deployed a web-based hiring platform designed to connect candidates with job opportunities.
- Built a responsive web interface focused on structured navigation, user interaction, and practical web application development.

### Amazon Landing Page

**GitHub:** <https://github.com/narmadakumavat2005-design>

- Developed a responsive e-commerce inspired landing page using HTML5, CSS3, and JavaScript.
- Implemented structured layouts and interactive frontend functionality to create a user-friendly web interface.

### Weather App

**GitHub:** <https://github.com/narmadakumavat2005-design>

- Developed a responsive weather application using JavaScript.
- Implemented client-side functionality for displaying weather information through an interactive web interface.

## EDUCATION

### Bachelor of Computer Applications (BCA), Honours
